Fine Selection of Coffees

At The Athenian House we believe the epilogue of an exquisite meal should be equally perfect as the meal itself. For this reason, we propose a special coffee experience, where our customers can choose between Chemex® premium filter coffee or Nespresso® grand crus, special origin espressos & exclusive selection.

Filter Coffees

Fine selected coffee beans are weighed & freshly ground upon your order, then your coffee is prepared at your table with the unique Chemex® filters & served in coffee degustation cups. The formulation of the filter permits the proper infusion time by regulating the filtration rate - not too slow, not too fast. Good infusion of the coffee grounds gives coffee a richer flavor, while at the same time making possible precise fractional extraction filtering out the undesirable components which make coffee bitter by allowing only the desirable flavor elements of the coffee bean to pass through.

Costa Rica Single Origin Fresh Roast

Honey processed Caturra Catuai variety, altitude 1500 - 1700m
Chocolate, intense notes of prune, apricot & blueberry
10
